

Our new site is now up and running

WED, FEB 17, 2016 13:48 CET

We are very excited to finally have launched our new website. Read more at Nilar.com on how our Nickel Metal Hydride batteries bring a greener, safer and more reliable form of energy storage to a range of applications.

About Us

Nilar brings you the next generation in modular power technology with the bi-polar NiMH energy storage. The unique construction of the battery delivers incredible power and reliability from a lighter, smaller and greener unit. Furthermore, the modular design allows batteries to be coupled in parallel and series to deliver the power and capacity required to meet virtually any need. Put simply, Nilar batteries deliver more from less. Since it was founded in 2000 by two of the leading experts from the battery branch, Nilar has always sought to challenge the norms of the battery industry. From its two R&D departments in the USA and Sweden the company has revolutionized the way industrial batteries are constructed, developing a unique energy storage system that can be easily scaled to fit different applications. Today, the batteries are produced at the company's state-of-the-art factory in Sweden. Read more about us at www.nilar.com
